

Beijing Office

Beijing Office

Purposes of Office

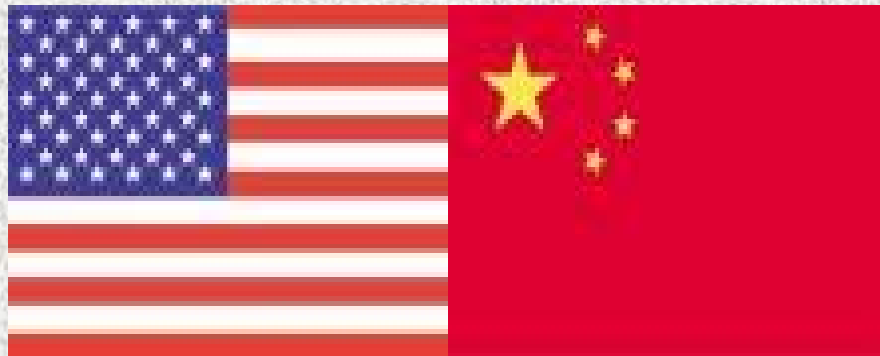

- **To facilitate and strengthen collaboration between U.S. and Chinese scientists and engineers for furthering American S&T interests**
- **To report on science and technology developments and policies in China**
- **To create a liaison with Chinese agencies and institutions**

Actions to Facilitate Missions

- **Equip the Office with cutting-edge I.T. to facilitate communication between U.S. and Chinese scientists and engineers**
- **Establish an NSF Beijing Science Fellows program to improve understanding of science and technology developments and policies in China**
- **Provide English/Chinese machine translators as part of the Beijing website to facilitate science information exchange**
